

VOLUNTEER OF THE MONTH

Ashley Morrow honored

Volunteers are such an integral part of the Chamber's success. Bringing their skills and passions forward to assist with events and programs, our volunteers have proven time and time again how much the Chamber is a true community organization.

The Monterey Peninsula Chamber of Commerce honors Ms. Ashley Morrow as Volunteer of the Month. A Certified Green Building Professional, Ashley is the Green Projects Coordinator for Carmel Building and Design. Her commitment to sustainability and environmental consciousness were apparent during her countless hours of volunteer time ensuring the success of the first annual Monterey Sustainable Business Showcase. Currently, Ashley is committed to the Chamber's newest addition, the Sustainability Committee.

Ashley attended a regional science and tech high school for engineering, and went on to earn her BS in Environmental Science. Her other current community interests include volunteering on Monterey Green Action projects, as well as exploring new recipes with the surprises she finds in her farm share box each week.

The Monterey Peninsula Chamber of Commerce thanks Ashley for her enthusiasm and her efforts.
